IN THIS SEMINAR

We will invite two students who have had fruitful summers to share what they did and our Educational Director Renée Boey will be sharing her insights on the following:

- What are noteworthy/new trends in summer programs and projects for high school students?
- What are the differences between various US university summer programs?
- How can you use the summer to design projects that nurture individual interests, help you stand out, and take your skills to the next level?
- What are some high quality summer programs to check out?
